

# My First LaTeX Document

Your Name

December 12, 2024

## 1 Introduction

This is a simple LaTeX document. You can write your text here. LaTeX is widely used for documents that include mathematical equations, such as:

$$E = mc^2$$

## 2 Adding a Figure

To include a figure, use the following syntax:

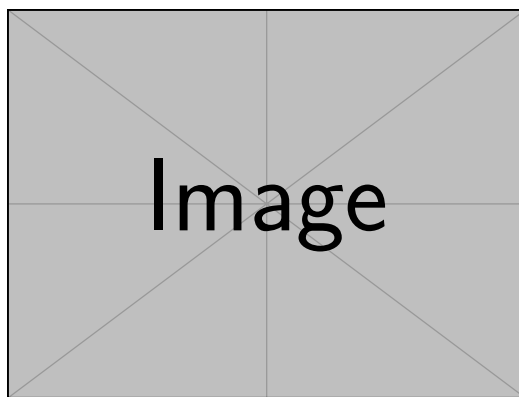

Figure 1: An example image.

### **3 Conclusion**

LaTeX is a powerful tool for creating professional-quality documents. You can create sections, add figures, and include complex mathematical expressions easily.
